THE

AMERICAN

JOURNAL OF SCIENCE.

EDITORS

JAMES D. AND EDWARD S. DANA.

ASSOCIATE EDITORS

PROFESSORS JOSIAH P. COOKE, GEORGE L. GOODALE AND JOHN TROWBRIDGE, OF CAMBRIDGE,

PROFESSORS H. A. NEWTON AND A. E. VERRILL, OF NEW HAVEN,

PROFESSOR GEORGE F. BARKER, OF PHILADELPHIA.

PUBLIC LIBRARY,
DETROIT, MICH.
MAR 25 1889

THIRD SERIES.

VOL. XXXVI.—[WHOLE NUMBER, CXXXVI.]

Nos. 211—216.

JULY TO DECEMBER, 1888.

WITH XI PLATES.

PUBLIC LIBRARY,
MICH.
MAR 25 1889

NEW HAVEN, CONN.: J. D. & E. S. DANA.
1888.

R V.136 July - Dec. 1888

PRESS OF TUTTLE, MOREHOUSE & TAYLOR, NEW HAVEN.

CONTENTS OF VOLUME XXXVI.

Number 211.

Page

ART. I.—Relation which the former Orbits of those Meteorites that are in our collections and that were seen to fall, had to the Earth's Orbit; by H. A. NEWTON 1

III.—Summit Crater of Mt. Loa in 1880 and 1885; by W. T. BRIGHAM and J. M. ALEXANDER 33

IV.—Explanation of the action of a Magnet on Chemical Action; by H. A. ROWLAND and L. BELL 39

V.—Wave-like Effects produced by the Detonation of Gun-Cotton; by C. E. MUNROE. With Plate IV 48

VI.—Mode of Reading Mirror Galvanometers, etc.; by R. W. WILLSON 50

VII.—Bertrandite from Mt. Antero, Colorado; by S. L. PENFIELD 52

VIII.—Some Localities of Post-Tertiary and Tertiary Fossils in Massachusetts; by W. W. DODGE 56

IX.—A Cordierite Gneiss from Connecticut; by E. O. HOVEY 57

X.—The Flow of Solids: a Note; by W. HALLOCK 59

SCIENTIFIC INTELLIGENCE.

iment to illustrate Valence, LEPSIUS: Action of Hydrogen sulphide on Arsenic acid, BRANNER and TOMICEK, 62.—Elements and Meta-elements, CROOKES, 63.—Measurement of High Potential, A. VOLLER, 66.—Fluorescence, B. WALTER: Grünwald's hypothesis in spectrum analysis: Penetration of Daylight in the water of Lake Geneva and of the Mediterranean, FOL and SARASIN, 67.—Treatise on Electricity and Magnetism, E. MASCART and J. JOUBERT, 68.

Fauna and Flora of the Trias of New Jersey and the Connecticut Valley, NEWBERRY, 70.—Archæan areas of Northern New Jersey and Southeastern New York, N. L. BRITTON: Annual Report of the State Geologist of New Jersey for the year 1887: Archæan Plant: Organization of the Fossil Plants of the Coal Measures, W. C. WILLIAMSON, 71.—Einleitung in die Paläophytologie vom botanischen Standpunkt aus, SOLMS-LAUBACH: Das Anlitz der Erde von EDUARD SUESS, 72.—Chert, G. J. HINDE: Dumortiérite from a new locality, M. LÉVY and LACROIX: Zircon from North Carolina: Seventh Annual Report of the State Mineralogist of California for the year ending Oct. 1, 1887, W. IRELAN: Contributions to the Mineralogy of the Pacific Coast, W. LINDGREN, 73.—Materialien zur Mineralogie Russlands, von KOKSCHAROW: Der Meteorit von Nowo-Urei, von M. JEROFEIEFF and P. LATSCHINOFF, 74.

Botany and Zoology—Recent advance in Vegetable Histology, A. DUMONT, 75, A. LEBLOIS, 76.—Botanical Works of the late George Engelmann, 76.—Excursions Zoologiques dans les Isles de Fayal et de San Miguel, J. DE GUERNE, 77.

Miscellaneous Scientific Intelligence—Meeting of the American Association for the Advancement of Science, for 1888: Annual Report of the Board of Regents of the Smithsonian Institution: Lick Observatory, University of California, 78.—Matter of interest to Societies, Libraries and Geologists: International Geological Congress: Hayden Memorial Geological Fund: Medals of the Geological Society of London, 79.

Number 212.

Page

ART. XI.—History of Changes in the Mt. Loa Craters; by J. D. DANA. Part II, on Mokuaweoweo 81

XII.—The Fayette County, Texas, Meteorite; by J. E. WHITFIELD and G. P. MERRILL 113

XIII.—Evidence of the Fossil Plants as to the Age of the Potomac Formation; by LESTER F. WARD 119

XIV.—Experiments on the Effect of Magnetic Force on the Equipotential Lines of an Electric Current; by E. H. HALL 131

XV.—Analyses of the Waters of some American Alkali Lakes; by THOMAS M. CHATARD 146

SCIENTIFIC INTELLIGENCE.

Chemistry and Physics.—On the Molecular weight of Nitrogen peroxide, RAMSAY, 150.—Index of refraction of metals, A. KUNDT, 151.—Resistance of square bars to Torsion, T. I. DEWAR: Latent heat of Evaporation of Water, Dr. DIETERICI: Electrolysis by alternating currents of Electricity, MANEUVRIER and J. CHAPPUIS, 152.—Electro-chemical Radiophone, CHAPERON and MERCADIER, 153.

Geology and Mineralogy.—On the Black Hills of Dakota, W. O. CROSBY: Annual Report of the Geological Survey of Pennslyvania for 1886, 153.—Geological and Scientific Bulletin: The Genealogical Tree, J. W. JUDD: Estudo sobre os Bilobites e outros Fosseis das Quartsites da Base do systema Silurico de Portugal, J. F. N. DELGADO: British Petrography with special reference to the Igneous Rocks, J. J. HARRIS TEALL. 154.—Brief notices of some recently described minerals, 156.—Mineralogical Notes, (1) Vesuvianite from Newbury, Mass., W. O. CROSBY and JAMES T. GREELEY; (2) Gahnite from Rowe, Mass., W. O. CROSBY and CHARLES L. BROWN: Brazilian Meteorites: Note on the Locality of the Santa Catharina Meteorite, 157.—The Bendego Meteorite, 158.

Botany.—Notices of recent contributions to Vegetable Physiology: (1) A. H. de Vries's studies of Glycerin in its relations to certain tissues, 158; (2) Assimilation by colored and variegated leaves, ENGELMANN, 159.—(3) Hough's American Woods, Part 1, ROMEYN B. HOUGH, 160.

Obituary.—AMOS H. WORTHEN, 160.

Number 213.

Page

ART. XVI.—Cambrian Fossils from Mount Stephens, Northwest Territory of Canada; by CHARLES D. WALCOTT.. 161

XVII.—History of Changes in the Mt. Loa Craters; by J. D. DANA. Relations of Kilauea to Mt. Loa and Contrast between Volcanoes of the Mt. Loa and Vesuvius types 167

XVIII.—On the formation of the deposits of Oxides of Manganese; by F. P. DUNNINGTON 175

XIX.—Maxwell's Theory of the Viscosity of Solids and Certain Features of its Physical Verification; by CARL BARUS 178

XX.—On the Origin of Primary Quartz in Basalt; by JOSEPH P. IDDINGS 208

XXI.—Mineralogical Notes; by GEO. F. KUNZ..... 222

SCIENTIFIC INTELLIGENCE.

Miscellaneous Intelligence.—Explorations of the Gulf Stream, Lieut. J. E. PILLSBURY, 225.

Obituary.—HENRY CARVILL LEWIS, JAMES STEVENSON, ALBERT D. HAGER, 226.

Number 214.

Page

ART. XXII.—A young Tortoise, *Chrysemys picta*, with two heads; by E. H. BARBOUR. With Plate V. 227

XXIII.—The Structure of Florida; by L. C. JOHNSON 230

XXIV.—Analysis of a Soil from Washington Territory, and some remarks on the utility of Soil-analysis; by E. A. SCHNEIDER 236

XXV.—Rosetown Extension of the Cortlandt Series; by J. F. KEMP 247

XXVI.—The Contact-Metamorphism produced in the adjoining Mica schists and Limestones by the Massive Rocks of the "Cortlandt Series," near Peekskill, N. Y.; by G. H. WILLIAMS. With Plate VI 254

XXVII.—The Sedentary Habits of Platyceras; by C. R. KEYES 269

XXVIII.—Edisonite, a fourth form of Titanic acid; by W. E. HIDDEN 272

XXIX.—Two new masses of Meteoric Iron; by G. F. KUNZ. With Plate VII 275

XXX.—Experiments on the Effect of Magnetic Force on the Equipotential Lines of an Electric Current; by E. H. HALL 277

XXXI.—The Compression of Powdered Solids; by W. SPRING 286

XXXII.—Preliminary notice of Beryllonite, a new mineral; by E. S. DANA 290

SCIENTIFIC INTELLIGENCE.

Physics.—Infra-red Solar Spectrum, ABNEY, 291.—Photometry of Color, ABNEY: Heat Measurement, VON HELMHOLTZ, 292.—Ether Calorimeter, NEESEN: Electrolysis of Water, VON HELMHOLTZ, 293.

Geology and Natural History.—Explosive volcanic eruption in Japan, J. S. MANSFIELD, 293.—American Geological Society: Cambrian Trilobites from Sardinia, G. MENEGHINI, 294.—Bibliography of the Foraminifera, Recent and Fossil, C. D. SHERBURN: Decomposition of Native Iron Sulphides, A. A. JULIEN: Rock-Forming Minerals, F. RUTLEY: Uraninite, W. F. HILLEBRAND: Heather in Townsend, Mass., BALL, 295.—Insect Life, 296.—Fauna of British India, W. T. BLANFORD: Entomology for Beginners, A. S. PACKARD, 297.

Miscellaneous Scientific Intelligence.—American Association for the Advancement of Science, 297.—India in 1887, as seen by Robert Wallace, 302.—Eclectic Physical Geography, R. HINMAN, 303.

Obituary.—SILAS STEARNS, 303.—R. CLAUSIUS: RICHARD A. PROCTOR: PHILIP HENRY GOSSE: M. HENRI DEBRAY, 304.

Number 215.

Page

ART. XXXIII.—Deflection of the Plumb-line and Variations of Gravity in the Hawaiian Islands; by E. D. PRESTON. 305

XXXIV.—Mineralogical Notes; by S. L. PENFIELD and E. S. SPERRY 317

XXXV.—Absorption Spectra of certain Blue Solutions; by F. B. PITCHER 332

XXXVI.—Instrument for Demonstrating the Laws of Transverse Vibrations of Cords and Wires; by G. S. MOLER. 337

XXXVII.—Rhætic Plants from Honduras; by J. S. NEWBERRY. With Plate VIII 342

XXXVIII.—Circular Polarization of certain Tartrate Solutions; by J. H. LONG 351

XXXIX.—Energy and Vision; by S. P. LANGLEY 359

XL.—Mineralogical Notes; by W. E. HIDDEN 380

SCIENTIFIC INTELLIGENCE.

Chemistry and Physics.—Relation of Solubility to Fusibility, CARNELLEY and THOMSON, 383.—Raoult's method for determining Molecular Weights, RAOULT, 384.—Vapor-density of Hydrofluoric acid, THORPE and HAMBLY: Spectrum of Oxygen, JANSSEN: Valence of Oxygen, HEYES, 385.—Carbon Atom and Valence, V. MEYER and RIECKE, 386.—Chemical Analysis of Iron, A. A. BLAIR: Interference of Electro-magnetic Waves, FITZGERALD, 387.—Ultra violet Spectra of Metalloids, DESLANDRES: Substitute for Bisulphide of Carbon in Optical work, H. G. MADAN: Index to the Literature of the Spectroscope, by A. Tuckerman, 388.

Geology and Mineralogy.—International Geological Congress at London: Theoretische Geologie, E. REYER, 389.—Formes du Terrain, NOË and de MARGERIE: Structure and Classification of the Mesozoic Mammalia, OSBORN: Eozoon Canadense, DAWSON, 390.—Nya anmärkningar om Williamsonia af A. G. Nathorst: Riebeckite, a new mineral: Mazapilite, a new mineral, 391.—Minerals of New York County, CHAMBERLIN, 392.

Botany and Zoology.—Dr. Watson's Contributions to American Botany: Flora of Middlesex County, Mass., DAME and COLLINS, 392.—Catalogue of Plants growing in Nantucket County, Mass., OWEN, 393.—Catalogue of the Flora of Vermont, PERKINS: Plants of Rhode Island, BENNETT, 394.—Catalogue of Flowering and Fern-like Plants growing in vicinity of Niagara Falls, DAY: Journal of Morphology, 395.

Miscellaneous Scientific Intelligence.—Meeting of the British Association at Bath in 1888.

Obituary.—BENJAMIN B. CHAMBERLIN, 396.

Number 216.

Page

ART. XLI.—The Invisible Solar and Lunar Spectrum; by S. P. LANGLEY. With Plates IX and X 397

XLII.—A brief history of Taconic ideas; by J. D. DANA ... 410

XLIII.—Certain Generic Electrical Relations of the Alloys of Platinum; by C. BARUS 427

XLIV.—Puget Group of Washington Territory; by C. A. WHITE 443

XLV.—Sulphantimonites from Colorado; by L. G. EAKINS . 450

XLVI.—Voltametric Measurement of Alternating Currents; by A. E. KENNELLY 453

XLVII.—Fauna of the Great Smoky Mountains; by C. H. MERRIAM 458

XLVIII.—New Thorium Mineral, Auerlite; by W. E. HIDDEN and J. B. MACKINTOSH 461

XLIX.—New Sodium sulphato-chloride, Sulphohalite; by W. E. HIDDEN and J. B. MACKINTOSH 463

L.—Appendix: Horned Dinosaurs from the Cretaceous; by O. C. MARSH. With Plate XI 477

SCIENTIFIC INTELLIGENCE.

Chemistry and Physics.—Vapor-density of Aluminum chloride, FRIEDEL and CRAFTS: Freezing mixtures containing solid Carbon dioxide, CAILLETET and COLARDEAU, 465.—Determination of the Heat of Combustion of Coal, SCHEURER-KESTNER, 466.—Wave-length of the Double red line in the spectrum of Potassium, DESLANDRES: Electrical discharges in gases and flames, E. WIEDEMANN and H. EBERT: Electrodynamic effect produced by the movement of a dielectric in an electrical field, W. C. RÖNTGEN, 467.—Light and Electricity, LORD RAYLEIGH: The energy stored in permanent strains, C. BARUS, 468.

Geology and Mineralogy.—International Congress of Geology, 468.—American Report to the International Congress of Geologists, 469.—Volcanic Phenomena of the Eruption of Krakatoa, J. W. JUDD: Microscopical Physiography of the Rock-making Minerals and aid to the microscopical study of rocks, H. ROSENBUSCH and J. P. IDDINGS, 471.—Phenacite in New England, G. F. KUNZ, 472.

Botany.—Color-granules in flowers and fruits, COURCHET, 472.

Miscellaneous Scientific Intelligence.—American Eclipse Expedition to Japan, D. P. TODD, 474.—National Academy of Sciences, 475.—Note to Article VIII: Tuckerman Memorial Library, 476.

Communication on the American Report of the International Congress, J. W. POWELL, 476*a*.

INDEX TO VOLUME XXXVI, 479.

☞ APPENDIX of the Gray Bibliography and Index, issued in numbers for September and October.
